From: Gary G. Marchand, Interim Chief Executive Officer

Subject: Weekly Update – RFP Response

Date: September 9, 2022

The following update is being provided on the lease negotiations with UMMC. The RFP Response and proposed lease terms remain under discussion with the county and city as all parties must reach agreement on any final terms. The RFP Response remains confidential at this time so that all parties can discuss any questions or concerns in order to arrive at agreed upon terms. This process will likely continue for the next several weeks.

As we shared with you last week, we have exited the Labor & Delivery service line as part of our Viability Plan. We have coordinated early transition discussions with UMMC on this service line. This process will occur on a separate timeline than the lease negotiations. Discussions to date have involved securing continuing access to physician and clinic services for residents of the service area. At this time, we do expect most, if not all, of our staff will be offered positions in a Greenwood based clinic. Similarly, we have coordinated early transition opportunities for the physicians in this service line.

We will provide ongoing updates as necessary on key objectives of our lease negotiations with UMMC.
