EGT 2021 Harvest Update

**Express Grain Customers and Friends,**

I hope everyone is having a great harvest this year. I wanted to update you all on how we are doing. This harvest Express Grain has received approximately 7.5 million bushels of corn! This is the 2nd largest in our history just behind 2013. A lot of this was made possible due to the inverted market and high moisture harvesting program. We have shipped approximately 6.5 million bushels of corn out to the market. We have to thank the CN railroad for doing an excellent job of keeping trains rolling in and out of our Sidon Facility, and for you getting it out of the field! We are so thankful a large portion got their corn out of the field and to market before the Hurricane. Soybeans are rolling in as well. Due to issues with the river this year, we are definitely going to see more bushels come our way. We are steadily crushing beans, and will start shipping trains of beans so we have ample space for everyone. I also wanted to let you know that we are in good shape financially. We have funding in place from multiple sources to make sure everyone gets paid on time. Stay safe out there and keep those combines rolling!

Sincerely,

John Coleman

President
